

Sri Chandana

 chandana-web |  sri-chandana-b1a519188  schandana.ch29@gmail.com |  +91 9182968012

Full-stack web developer specializing in the MERN stack, with a strong grasp of Frontend.

SKILLS

Languages	JavaScript(ES6+), HTML5, CSS3, TypeScript, Java, C, C++.
Frontend	React.JS, Redux/ContextAPI, Next.JS, Axios/FetchAPI, TailwindCSS, Bootstrap.
Backend	Node.JS, Express.JS, RESTful API, Authentication/Authorization(JWT, bcrypt), Middleware.
Database	MongoDB, MongoDB Atlas(Cloud).
Developer Tools	Git/GitHub, Postman(API testing), Netlify/Vercel, Render.

PROJECTS

RESTAURANT MANAGEMENT SYSTEM (MERN STACK) [Admin: Link](#) / [Guest: Link](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Axios, Render, Vercel

- Developed a full-stack restaurant management system with separate Admin and Guest interfaces.
- Admins can manage menu items, orders, tables, and chefs, while guests can view the menu and place orders.
- Integrated MongoDB Atlas for cloud-based data management and Mongoose for schema modeling.
- Implemented RESTful APIs using Express for smooth communication between frontend and backend.
- Deployed backend on Render and frontend on Vercel, configured secure CORS policies for cross-origin communication.
- Added image upload support, dynamic analytics dashboard, and real-time order updates for efficient restaurant operations.
- Utilized Axios for API communication and React Router for multi-page navigation.
- Ensured full responsive design, intuitive UX, and consistent performance across devices.

QUIZY- QUIZ GAME

[Link](#)

Tech Stack: Next.js, React Hooks, Context API, Tailwind CSS.

- Developed an interactive quiz platform with category and difficulty-level based questions using the Open Trivia API.
- Implemented real-time score tracking, timer functionality, and dynamic rendering of questions and results.
- Utilized Context API for global state management and smooth data flow across components.
- Designed a responsive UI using Tailwind CSS, ensuring optimized performance on mobile and desktop.

POCKET-NOTES

[Link](#)

Tech Stack: React.JS, Local Storage, CSS, Context API

- Built a personalized note-taking web app that enables users to create, edit, and delete notes efficiently.
- Integrated Local Storage to ensure data persistence across browser sessions without a backend.
- Added custom avatar and color theme options for a tailored user experience.
- Designed a responsive and minimal UI with CSS, optimized for both desktop and mobile devices.

EDUCATION

Bachelor's of Computer Applications(BCA) - Indira Gandhi National Open University. Dec, 2023

WORK EXPERIENCE

Go Experts IT Solutions	Nov 2025- Present
Jr. Full Stack Developer	
- Responsible in developing responsive user interfaces, building secure and scalable backend APIs, and integrating APIs with frontend components.	
- Collaborated closely with cross-functional teams to enhance application performance, usability, and maintainability.	
Cuvette Tech	June 2025- Nov 2025
Full stack developer Internship	
- Gained hands-on experience in developing full-stack web applications using the MERN stack. Mastered key concepts such as authentication, filtering, REST API, object data model etc.	
- Successfully built 4-5 mini projects and 4-5 full stack projects, showcasing expertise in frontend and backend development.	
- Improved skills in problem-solving, debugging, and efficient coding practices, while adhering to industry standards.	
DAZN	May 2025- Aug2025
Interim TL(Tech Support)	
- Supported team members for Football Club World Cup and acted as a liaison between the team and upper management.	
IntouchCX	Aug 2023- Apr2025
Senior Technial support	
- Documentation and Providing support for the bugs and feature issues raised by clients or internal teams.
